

GSP-1  
1" X 1" Sodium Iodide  
Scintillator

Good probe when sensitivity is needed. Good for uR detection. Gamma only. Good energy response from 50 keV to 2 MeV.

Specifications

Compatibility	All Johnson Meters
Operating Voltage	900 vdc
Detector Crystal	1" (2.5cm) X 1" Sodium Iodide
Window	35mg/cm <sup>2</sup>
Nominal Background	1,800
Energy Response	15keV-2 MeV gamma
Sensitive Area	1" (2.5cm) X 1"
Finish	Polyurethane & PVC coated aluminum housing
Dimensions	1 7/8" (4.8cm) X 6" (15 cm)
Weight	8 oz
Environmental	-20°C--60°C 5%-95% RH non-condensing--IPX4
